	4. ± t e t	There was a little flying with U-2s at the DOEBERITZ airfield. F ty-four fighters with radial engine, three-bladed propeller, win either rounded-off or angular, and a sliding full-view cockpit of top of fuselage, were parked on the landing field. A large tank truck and a small tank truck were also observed there.						25X1B	
25X1A	e d i: m	Comment: It is inferred from report that a fighter regiment equipped with LA-9s is stationed at the DOEBERITZ airfield. Report does not state whether more aircraft were in the hangars. According to previous reports two fighter regiments were assumed to be stationed at the field. This assumption was supported by the number of motor vehicles proviously observed at 25X1. The DOEBERITZ airfield.
